Leaders Summit

Industry 5.0 – Towards a sustainable, Human-Centricity

Sonia Mota Prego
Head of SC Projects Development, EssilorLuxottica

Financially supported by

Co-funded by the
European Union

An initiative of

Key skills to lead transition toward a more human-centered and inclusive manufacturing landscape

- Empathy and Emotional Intelligence
- Collaboration and Communication
- Technological Proficiency
- Change Management
- Inclusivity and Diversity
- Sustainability Mind-set

SOFT SKILLS

Accelerating transformation and ensure that innovation doesn't overlook human and social values

- Continuous Learning
- Fostering Collaboration and Inclusivity
- Balancing Technology & Humanity
- Advocating for Sustainability
- Leading by example

HUMAN-CENTRED LEADERSHIP

Industry 5.0 is creating opportunities to rethink sustainability in manufacturing

- **Smart Manufacturing**
AI ; Internet of Things (IoT) ; Robotics
Creating more efficient & eco-friendly manufacturing processes
- **Circular economy**
 - Products designed for reuse, Recycling
 - Minimal environmental impact
- **Human-Machine Collaboration**

Roles of young generation and us as adults

- Embracing new technologies
- Advocating for Change
- Innovating Solutions
- Mentorship and Guidance
- Creating Opportunities
- Fostering a collaborative environment
- Promoting Education and Awareness

DIALOGUE IS THE BRIDGE

Key messages to steer the transition to Industry 5.0, being positive change agents in an increasingly interconnected and evolving world

- Be passionate and Lead with Impact
- Foster Collaboration and Inclusivity
- Be Adaptable and Agile : complexity is an opportunity
- Prioritize Human-Centric Values

**BE YOUR TRUE SELF AND
MAKE THE DIFFERENCE**

Thank you
