

# PERFORMANCE *through*

01

INNOVATION

02

TECHNOLOGY

*The core principle of nanotech advanced materials:*  
**small quantity achieves great results**

# SUSTAINABILITY

*to*

01

**PROTECT PEOPLE**

02

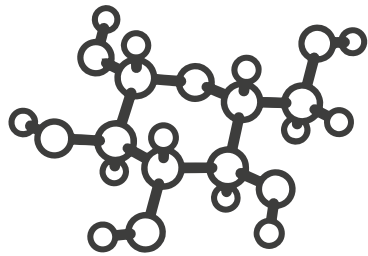

**PROTECT THE ENVIRONMENT**

03

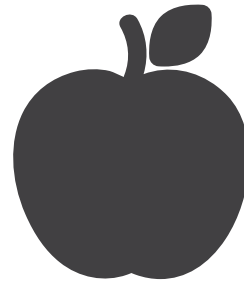

*while being* **PROFITABLE**

# What is Nanotech about?

*A sugar molecule is about as big in relation to an apple, as the apple is in relation to the Earth.*

1 nm  $\approx$  sugar molecule

apple

Earth

**Add performance  
to mature goods**

**Be sustainable &  
produced sustainably**

How does **graphene**  
increase product  
performance?

How **graphene**  
can be part of the  
**Green New Deal?**

*«Do  
or do not.  
There is no try»*

*Master Yoda*
